STREET & INTERSECTION DESIGN WORKSHOP

28th November and 01st December

10:00 am | Seminar Hall

Streets are the **most common public space** in any city. Unfortunately, over the years due to rapid unplanned growth, city authorities have been **prioritizing our streets for movement of cars**. This imbalance has led to cities being more congested than ever before and some of our largest cities being regularly featured in the **'Top 10 Polluted cities of the world'**.

The **purpose of this workshop** is to **question** the current practice and reimagine streets in a way it deserves to be.
